

# TURKS ABOLISH SULTANATE

## BANDITS SHOT ATTEMPTING TO LOOT TRAIN

Jack Kennedy alias "Quail Hunter" and Accomplice Are Killed

### OFFICIALS PREPARED

Tipped off on Robbery of St. Louis-Memphis Fast Train

Memphis, Tenn., Nov. 3.—Jack Kennedy, alias the "Quail Hunter," an ex-convict who has served a long term in the Missouri state penitentiary for a holdup and robbery of a St. Louis and San Francisco passenger train, and an unidentified bandit were shot and killed in what railroad officials here declare was an unsuccessful attempt early today to rob the mail and express cars of the fast St. Louis-Memphis, Frisco train No. 605 last night, by a gang of six or more masked bandits.

Reports received here regarding the success of the holdup are conflicting, one report being that a number of pouches of mail and some express matter were secured by the robbers, while another report says the robbers were driven off before they could enter the mail car.

The holdup was planned in Memphis about 10 days ago, according to postoffice inspectors here, who were "tipped off" to the plans of the bandits, and as a result all night trains in both directions on the Frisco have carried heavily armed guards for the past week.

According to the original plans, officers said, the holdup was to have taken place in northern Arkansas, but the theft of an automobile which it was planned to use, upset the plans and caused a delay. In learning that they were being watched by postoffice inspectors the men left Memphis, but were traced to Seventy Six, Mo., near where the holdup this morning occurred. Since that time one or more of the band has been constantly under surveillance and when the time came, officers on the train were ready to meet the bandits.

When the train was brought to a stop near Wittenberg, Mo., shortly after midnight today, according to reports received by Frisco officials, a fusillade of shots was fired by the bandits, who seemed to be scattered along the tracks. His fire was returned by armed guards on the train. In the gun fight which followed, Kennedy and one of his companions were instantly killed. The remainder of the band, which members of the train crew said numbered at least six, escaped in an automobile. Arrangements had previously been made by postoffice inspectors to form posses in the neighborhood of Seventy Six and according to long distance telephone messages from here this morning a number of posses are in pursuit of the bandits.

### UNCOUPLED ENGINE.

Chaffee, Mo., Nov. 3.—The bandits who attempted to hold up and rob a passenger train of the St. Louis and San Francisco railroad at Wittenberg, Mo., early this morning uncoupled the engine from the train several miles north of Wittenberg, according to advices received at the Frisco dispatcher's office here today. The reports said the two bandits killed were shot to death when they stopped off the locomotive which was running wild at Wittenberg and resisted the efforts of three special detectives who were laying in wait to arrest them. The engine later was recovered.

### CUT WIRES.

St. Louis, Mo., Nov. 3.—Telephone communications with Wittenberg, Mo., where two robbers are reported to have been shot dead in an attempt to loot a St. Louis and San Francisco passenger train, was cut off shortly after midnight, the local telephone company announced early today. The reported severing of wires led to the belief the bandits had cut wires into Wittenberg.

### RECOVER MAIL.

Wittenberg, Mo., Nov. 3.—Jack Kennedy, veteran Missouri train robber and Harvey Logan, former railroad man were shot and killed early today by postoffice inspectors, after they had robbed a mail car on a southbound passenger train between the St. Louis and San Francisco. The stolen mail, about 100 registered letters, was recovered.

Six postoffice inspectors, three Frisco special agents and two deputy sheriffs of Scott county were waiting near the scene of the robbery, which had been anticipated through previous watching of Kennedy's movements. The veteran bandit had been representing himself as a "quail hunter" in this section for several weeks.

Kennedy and his companion were making for their automobile with the stolen mail when ordered to halt by the officers. The bandits reached for their weapons, according to the inspectors, and the latter opened fire.

## FORGET-ME-NOT DAY TO BRING BACK WAR MEMORIES IN CITY

Florence Fisher, "army war worker, who lost a brother in the Argonne, and Fred Breuner, wounded at Chateau-Thierry, are shown making paper flowers to be sold Nov. 4 for the benefit of the Disabled Veterans of the World War.

Help the helpless help themselves! With this slogan, thousands of patriotic organizations, school children, charitable workers, actors, public officials, society girls, ministers and others are busy making forget-me-nots and arranging for their sale.

The sale will be conducted in Bismarck with a corps of volunteer workers under the direction of Mrs. R. A. Tracy. Mrs. Robert Orr is director for southwestern North Dakota. The Bismarck chapter of the Disabled Veterans of the World War is responsible for the observance of Forget-Me-Not day in this part of the state. Governor Nestos and Mayor Lenthart issued proclamations endorsing it.

The flower of remembrance will carry the pathetic appeal of America's war-wrecked young manhood, shattered on the fields of the World War. "National Forget-Me-Not Day" will be held Nov. 4 to do honor and assist them.

In every city and town, the campaign will be carried on. Forget-me-nots will be sold on all streets that day to raise money for their relief work of the Disabled American Veterans of the World War. It is a comprehensive, constructive program this organization of disabled heroes has arranged.

Assistance to all wounded or disabled American veterans is the big

## AVIATORS ON CROSS FLIGHT TO GOTHAM

Leave San Diego in Attempt To Reach New York Without a Stop

San Diego, Cal., Nov. 3.—Lieutenants John A. MacReady and Oakley Kelly, army aviators, took off at Rockwell field at 8:59 a. m. today in an attempt to cross the continent from San Diego to New York without a stop in the great monoplanes T-2. The aviators said their route would take them to Tucson, Ariz. From there the air is to be Deming, N. M., the Franklin mountain, 40 miles east of El Paso, across the foothills in the Texas panhandle and over Fort Sill, Okla. across the northwest part of Arkansas, over northwest Missouri, southern Illinois, Indiana and Ohio, entering Pennsylvania at the southeast corner. The route goes to Meadville, Pa., by way of Johnstown, Harrisburg, Pa. and Trenton, N. J.

They said they expected to travel about 2,850 miles.

### ARRIVE AT TUCSON

(By the Associated Press)  
Tucson, Ariz., Nov. 3.—In their non-stop flight from the Pacific to the Atlantic coast, Lieutenants MacReady and Kelly passed over Tucson at 12:15 today. The flyers were following the right of way of the southern Pacific.

### GERMANS LEAVE LABOR CONFAB

(By the Associated Press)  
Geneva, Nov. 3.—The German representatives in the international labor conference here left the meeting this afternoon owing to differences concerning the use of the German language.

## BADGERS PUT UP FIGHT FOR STAR TACKLE

Seek to Have Ineligibility Canceled by Conference Committee

### URGE PROFESSIONALISM

Wisconsin Team Leaves for Minnesota Game in Crippled Condition

Madison, Wis., Nov. 3.—Wisconsin today commenced its fight before the Western Conference Eligibility committee to have rescinded the order holding Donald "Jab" Murray, star Badger tackle ineligible for further competition, because of his participation in a football game between Taylorville and Carlinville, Ill.

The University athletic council communicated with the chairman of the conference committee asking for what charge Murray was found guilty of professionalism and what basis of fact the committee decided the Wisconsin man a professional.

"We will not sit back like kittens and permit Murray to be ruled out," Coach John R. Richards declared before leaving with his team for Minnesota.

Murray continues to maintain that although he played in the Taylorville football game, that resulted in disbarment of a number of Illinois and Notre Dame players, he did not accept money for his services, and was not enrolled in any University or school at the time. He was a regular member of the Taylorville legion team.

Upon coming to Wisconsin Murray told the athletic department that he had played on the Taylorville eleven and after a thorough investigation the University Athletic council ruled him eligible.

While he will be out of the Minnesota game tomorrow, Coach Richards is hoping that the big tackle will be able to get into the contest against Illinois on the following Saturday.

### OFF FOR GAME

Madison, Wis., Nov. 3.—Crippled Wisconsin football team left last night for Minneapolis where it will meet Minnesota tomorrow on Northrop field in the Badger's first hard game of the season.

With Murray, star tackle, at least temporarily out of the game because of his questioned eligibility and Harris, plunging half back, injured so seriously he will be unable to play for the remainder of the season, the Wisconsin team was far from its full strength. In addition both Captain Williams and Gibson.

## MEMORIAL FOR ROOSEVELT TORN AWAY

Tree on Capitol Lawn at Alabama Uprooted and Note Found on Ground

Montgomery, Ala., Nov. 3.—The Roosevelt memorial tree, which has been the subject of a controversy since planted on the Alabama capitol lawn by Montgomery Boy Scouts last Friday, mysteriously disappeared last night and today officials still were without the identity of the miscreants.

A note discovered where the tree had stood by the capitol night watchman read:

"Montgomery Ala.—Get this Alabama. To all concerned: 'The daughters of the confederacy are our mothers (our mothers) and this is the South. There are no trees in honor of Southern gentlemen in the capitol yard at Washington, and our war mothers do not want this one here.'"

## GERMANS WILL SEEK A LOAN

London, Nov. 3.—The German cabinet, according to a Central News dispatch has decided to ask the reparations commission for permission to negotiate a foreign loan of 500,000,000 gold marks for the purpose of stabilizing the mark.

## DIVISION OF RAILROAD CARS INVESTIGATED

Representative of Interstate Commerce Commission Takes up Proposition

### COMPLAINTS ARE MADE

Elevators Hold Discrimination Against Larger Ones in Present Method

Investigation of the method of distributing cars to elevators will be the object of a several days study in the state by Major Bailey, representative of the Interstate Commerce Commission, who conferred with railroad men and state officials here today. Major Bailey's visit is a result of the trip to Washington made by Assistant Attorney-General Charles Simon and Frank Millhollan of the railroad commission. Major Bailey has been stationed in Minneapolis.

The dispute among elevators results from the claim of many that cars should be allocated on a basis of the capacity or business done by the elevator last year and not pro rata. Under the system of distributing equally to elevators, it is claimed, the larger elevators do not receive as many cars in proportion to their business or capacity as do the smaller elevators, and therefore are placed at a disadvantage.

Delegations have complained to the state railroad commission, but no action has been taken. It is stated that the complaints come mainly from farmers' elevators, which are said to have greater capacity or do more business in many communities than the line elevators. The railroads have held that under the Interstate Commerce Commission rules they were obliged to distribute the cars in equal numbers to elevators.

The car situation has not improved, according to Railroad Commissioner C. W. McDonnell. If anything, he says, it is "tighter" now than it has been, except that there is no demand for potato cars except for refrigerator cars since it is too cold to ship in any except specially built cars.

There is probably a more crying demand for livestock cars than for grain cars, Mr. McDonnell said. The Soo line reported it had only about 20 percent of its requirements in stock cars. Elevators still are blocked in many parts of the state and when farmers have insisted on hauling grain to the elevators, so that it can be shipped before weather conditions prevent transportation of the grain from the farm to the elevator, such protection as is possible is being given the grain.

There is also little evidence as yet of a car movement to North Dakota as a result of the Interstate Commerce Commission's order to the railroads to get additional cars.

Lignite coal mines still are having difficulty in getting cars. Garrison operators reported they could run at only about 20 percent of capacity because of car lack.

### GETS BALE OF RUBLES FOR \$60

San Francisco, Nov. 3.—J. P. Ellison, foreign exchange manager of a local steamship concern, announced he has bought 100,000,000 Russian Soviet ruble notes for \$60 of American gold.

## STATE OF NATION JUSTIFIES NATION-WIDE TESTIMONY OF GRATITUDE, PRESIDENT DECLARES

Washington, Nov. 3.—Declaring that the state of the nation "presents very much to justify a nationwide and most sincere testimony of gratitude for the bounty which has been bestowed on us," President Harding, in the annual Thanksgiving proclamation issued today, called the American people to observe Thursday, Nov. 30, as a day of Thanksgiving, "a day when now approaches its end has been marked in the experience of our nation by a complexity of trial and triumphs, of difficulties and of achievements, which we must regard as our inevitable portion in such an epoch as that through which all mankind is moving," the proclamation said. "As we survey the experience of the past twelve months we shall find that our estate presents very much to justify a nationwide and most sincere testimony of gratitude for the bounty which has been bestowed upon us. Though we have lived in the shadow of the hard consequences of great conflict, our country has been at peace and has been able to contribute toward the maintenance and perpetuation of peace in the world. We have seen the race of mankind make gratifying progress on the way to permanent peace, toward order and restored confidence in its high destiny. Let us in all humility acknowledge how great is our debt to the Providence which has generously dealt with us and devote assurance of unselfish purpose to play a helpful and exalting part in human advancement. It is much to be desired that in rendering homage for the blessings which have come we should earnestly strive to continue and increasing aid to make our great fortune a means of helping and saving, as best we can, the cause of all humanity."

## REPORT NEW EYE-WITNESS IS DISCOVERED

Deputy Attorney-General Said To Have Discovered New Witness in Hall-Mills Case

### SUMMON ALL WITNESSES

They Will Be Interrogated by Prosecutor on Saturday, He Announces

(By the Associated Press)

New Brunswick, N. J., Nov. 3.—Deputy Attorney General Wilbur A. Mott, has discovered another woman eye witness of the murder of the Rev. Edward W. Hall and his choir leader, Mrs. Eleanor R. Mills, according to reports here today.

Her identity is said to be known only to Mr. Mott and Detective James F. Mason, chief investigator. Neither would say whether the woman actually saw the commission of the crime or merely saw the principals on the Phillips farm on the night of the murder.

Working from a secret headquarters, Mr. Mott is credited with having about completed the case. It is said he plans to begin presenting the case to the grand jury tomorrow, and that any further delay would be only for the purpose of strengthening his case for trial.

### SUMMON WITNESSES

New Brunswick, N. J., Nov. 3.—All persons connected with the Hall-Mills murder case with the exception of the slain rector's widow, were summoned to the court house today by Special Deputy Attorney General Mott for a checking, it was reported, of evidence to be submitted to the grand jury.

The investigators, it was learned, intend to interrogate these persons in order in which they appeared in the case beginning with the two New Brunswick policemen who discovered the bodies of the Rev. Edward W. Hall and his choir leader, Mrs. Eleanor R. Mills, under the crabapple tree on the Phillips farm.

The statements made by Mrs. Hall Wednesday when she answered a long questionnaire propounded by newspaper men probably will be taken as her story for the grand jury, it was said, and it was for this reason that she was not called today.

James Mills, husband of the slain choir singer, visited the scene of the crime for the first time last night. He declared then that their failure to arrest all members of both families immediately was a mistake. "They might have learned something then," he said, "but it is too late now."

### Some Meetings Small

Two weeks ago both the league and anti-league leaders were complaining of lack of interest in the campaign. One Nonpartisan declared that some of Senator Ladd's audiences in rural communities were disappointingly small for a United States Senator and attributed it to a lack of interest in politics. The interest has increased in the last week, however, they say, and in the Burlington county rural meetings the crowds have been much larger in the last several days.

A traveling man coming into Bismarck last night from a week's trip over the Slope territory said the topic of conversation most places is the shortage of railroad cars. Although he said politics was not debated with usual warmth he was well informed in political activity and mentioned the various counties, and expressed belief that there would be a heavy vote.

### Nelson's Idea

The senatorship is the chief issue. Both Independents and Nonpartisans are confident, the Nonpartisans claiming a victory for Frazier by 20,000 and Independents seeing a sure victory for O'Connor. The statement of T. G. Nelson diagnoses the senatorship in this manner:

"There is nothing in the situation to indicate that Frazier can get any more votes this fall than he had in June (91,000). We are certainly going to have more than 200,000 votes registered on November 7th. If weather and road conditions are favorable we should have a total vote ranging from 215,000 to 225,000. We may not reach the 1920 vote because of depopulation in the western part of the state. If North Dakota's credit and good name is made to suffer, which it will if Frazier is elected to the United States senate, the blame for it will have to rest on good citizens who will not vote for Frazier and who fail to vote for O'Connor. Nestos is sure to be elected by from 20,000 to 30,000 majority, depending on the vote of the total vote, and the rest of the state ticket will run well up with him."

The Grand Falls of Labrador are 2000 feet high, as compared with Niagara's 164 feet.

## ROBBERS MAKE HAUL IN FORKS

Grand Forks, N. D., Nov. 3.—Robbers broke open the safe in the office of Oscar Knudson, proprietor of the Columbia hotel here Thursday night and escaped with about \$50 in cash and about \$500 in liberty bonds. Entrance was gained through a rear window and the safe broken open with a crowbar.

## 220,000 VOTE IS PREDICTED NEXT TUESDAY

T. G. Nelson of Independent Headquarters Sees Big Vote If Weather Is Good

### INTEREST IS GROWING

Senatorship Has Become Big Issue; Nelson Sees 20,000 To 40,000 for Nestos

A vote of 220,000 and 230,000 in the election of November 7th is predicted in North Dakota if the weather and roads are good, by Independent headquarters in Fargo. League headquarters also see a good vote under these conditions.

There is more increasing interest in the election, though because of the long battle on the same general proposition in North Dakota has somewhat surfeited the voters. It was expected there would be a big vote in the primary, but the vote was disappointingly small. However, many county and legislative contests which have become more intense this fall may increase the vote.

T. G. Nelson, from Independent headquarters, said: "The total vote (Republican and Democratic) cast in June was 191,000 as compared with the total vote of 210,000 in the recall, and 220,000 in the general election in 1920. Two years ago Frazier received 117,000 votes. One year ago he received 107,000. In the primary this year he received 91,000 votes. The story told by the Frazier vote is the story for the whole League ticket. It has fallen from a majority of 67,000 of the male vote only in 1918 to almost 5,000 less than a majority in 1921.

A few more voters have changed their minds about Townleyism in each election until now there is not the slightest chance for the Frazier-Lemke ticket to get a majority on its side, if the voters who are convinced that Townleyism is not a good thing for North Dakota and its people, will go to the polls and vote their convictions as every good citizen should do."

### REPEALS TREATY

Angora, Nov. 3.—The Turkish nationalist government at Angora has announced that it considers null and void all treaties and conventions concluded since March 16, 1920, by the Constantinople administration.

### MAY HELP SITUATION

London, Nov. 3.—One effort of the action of the Turkish nationalist government at Angora in relation to the sultan will be a revival of the effort of the Emir Afghanistan to claim the caliphate, it is believed, in diplomatic circles here, as the most powerful crowned moslem ruler.

In any case the British Indian authorities feel that the action taken at Angora will undermine the moslem agitation in India against the British, which has been based on their alleged mistreatment of the sultan.

## U. S. TAX DRIVE IS OPENED

### Chief Field Deputy Comes to Bismarck to Aid

William Ray, chief field deputy of the U. S. internal revenue department, Fargo, is in Bismarck at the division office laying plans with B. E. Hitchcock, division chief, for an income tax drive to be started Monday.

The campaign will be for the purpose of checking up on delinquent income taxpayers, mistakes in returns and generally make a drive to see that the government gets all that is coming.

### MRS. PHILLIPS FACES ACCUSER

Los Angeles, Nov. 3.—Mrs. Clara Phillips, charged with the so-called hammer murder, faced further cross-examination today. She took the stand in her defense yesterday and charged her accuser, Mrs. Peggy Caffee, with having wielded the hammer with which Mrs. Albert Trammie Meadows, a young widow, was beaten to death.

The prosecution had begun to question Mrs. Phillips when adjournment was taken yesterday.

## POWER PLACED IN ASSEMBLY OF NEW STATE

Ottoman Empire Collapses Before Ideals of Nationalist Movement

### CELEBRATE TRANSITION

Salute of 101 Guns Heralds Dawn of New Day in Near East

(By the Associated Press)

London, Nov. 3.—A report that the Turkish nationalist assembly at Angora has passed a law suppressing the sultanate of Turkey and the law of succession to the throne, is contained in a dispatch to the Exchange Telegraph from its Constantinople correspondent, who quotes dispatches from Angora.

### TAKES FINAL STEP

Constantinople, Nov. 3.—The Angora assembly last night decided unanimously that it is invested with sovereign rights and that the Turkish nationalist government is the keystone of the caliphate and today the newspapers carry these headlines: "Ottoman empire collapsed. In its place there has arisen new national Turkish state—Sultanate abolished."

The decision of the assembly was announced by a salute of 101 guns. Immediately the soldiers and civilians began to celebrate to the blare of military bands and the bright flares of torch bearers.

Two resolutions were unanimously adopted by the assembly. The first said that by virtue of organic statute and representation, sovereign rights had been vested in an inalienable and indivisible manner in the moral person of the Angora assembly. The second resolution declared the caliphate was vested in the imperial family of the Osman dynasty, but that the Turkish government remains the keystone of the caliphate.

The selection of caliph is to be made by the grand national assembly of Turkey which will choose that member of the imperial family, the resolution provides, who is the best instructed, the best educated, the most honest and wisest.

After these resolutions had been unanimously accepted amidst applause, Premier Reutbey ascended the tribune and proposed the proclamation of a national holiday on the anniversary of the reaching of this decision.

Such action by the national assembly would mean that the sultan is deposed. In the future according to the dispatches, the only caliphs in Turkey will be periodically elected without government prerogative, all power being in the hands of the national assembly.

### REPEALS TREATY

Angora, Nov. 3.—The Turkish nationalist government at Angora has announced that it considers null and void all treaties and conventions concluded since March 16, 1920, by the Constantinople administration.

### MAY HELP SITUATION

London, Nov. 3.—One effort of the action of the Turkish nationalist government at Angora in relation to the sultan will be a revival of the effort of the Emir Afghanistan to claim the caliphate, it is believed, in diplomatic circles here, as the most powerful crowned moslem ruler.

In any case the British Indian authorities feel that the action taken at Angora will undermine the moslem agitation in India against the British, which has been based on their alleged mistreatment of the sultan.

## U. S. TAX DRIVE IS OPENED

### Chief Field Deputy Comes to Bismarck to Aid

William Ray, chief field deputy of the U. S. internal revenue department, Fargo, is in Bismarck at the division office laying plans with B. E. Hitchcock, division chief, for an income tax drive to be started Monday.

The campaign will be for the purpose of checking up on delinquent income taxpayers, mistakes in returns and generally make a drive to see that the government gets all that is coming.

### MRS. PHILLIPS FACES ACCUSER

Los Angeles, Nov. 3.—Mrs. Clara Phillips, charged with the so-called hammer murder, faced further cross-examination today. She took the stand in her defense yesterday and charged her accuser, Mrs. Peggy Caffee, with having wielded the hammer with which Mrs. Albert Trammie Meadows, a young widow, was beaten to death.

The prosecution had begun to question Mrs. Phillips when adjournment was taken yesterday.

# GERMANY AT WORK UPON "VOCAL FILMS"

Speaking Movies, However, Far Below Other Kind as Commercial Production

## AMPLIFIER NOW USED

"Electrical Mouth" Contrivance Employed to Add Sound to Silver Sheet

Berlin, Nov. 2. Despite the fact that success has crowned the efforts of German inventors at producing the "speaking" film, it is far from the ordinary "movies" in the export trade. The handicap is obvious, since a film produced in Germany could hardly be expected to find a market abroad where the language would be sufficiently understood to make its showing profitable.

Promoters of the invention see a possibility, however, of some day making this type of film eliminate the necessity of having orchestras in movie theatres.

Two special showings have been given in Berlin recently, in which inventors revealed their achievements in making sound synchronize perfectly with the movements pictured on the screen. Besides a demonstration during the middle of August at which a number of newspapermen were shown the "phonofilm" of Lee de Forest, of New York, there was recently exhibited before several hundred invited guests the "Tri-Ergon," an acoustic film invented by Hans Vogt, Dr. Jo Engle, and Joseph Massole.

Five devices form the backbone of the "Tri-Ergon." They are the kathodophone, or "electrical ear"; a special amplifying conduit; an ultra-frequency lamp; the photozelle, or "electrical eye"; and the statorphon, or "electrical mouth."

Seven transformations are accomplished in order to effect synchronization of sound and movement in the film. The sound waves to be reproduced are first transformed into electricity; this electricity is converted into light; the light is changed in two separate stages into the silver blackening of the negative and positive films; these in turn are retransformed into light; and finally the electricity produces the vibrations of the sound.

"Electrical Ear"

The "electrical ear" naturally is the first apparatus to come into play. Its outstanding feature is an ordinary metal funnel in which the sound waves are converted to pass through a narrow opening into a glowing rod through which stream of electricity courses. As the rod becomes heated it influences the surrounding air so that this is "ionized," making it capable of conducting a current. Secondary electrical glimmers thus appear bridging the space between the nozzle and the rod. These glimmers represent the electrified sound waves.

Use Amplifier

These waves are magnified by the special amplifier and are fed to a vacuum lamp. The latter is of such construction that it reacts to any sound waves covering wide intervals all the way from only 16 to as many as ten thousand a second. Its light grows stronger or fainter with the volume of the sound. Its rays produce small stripes along the side of the film. These stripes represent the sounds and run through the film in exact coincidence with the movements in the picture. The interval between them varies according to the wave interval. The line of stripes to the "electrical eye." The "eye" is a bulb through which an electrical stream passes. Its interior surface is coated with a chemical substance possessing the property of separating electrons. As this process develops, the conducting power of the photozelle increases. The electrical stream passing through it increases or diminishes with the volume of the sound waves. These phenomena are again amplified and recorded by the "electrical mouth."

This instrument comprises mainly a membrane 30 centimeters in diameter which is vibrated by electricity rather than by magnetism. It is claimed to be the first actually workable technique capable of transmitting loud speaking.

Keeps Up With Picture

Thus the sounds issue out into the air from the membrane at the same time the picture is projected. The "gramophone" element is eliminated entirely, yet to a person in the audience the sounds seem to be coming from an instrument of that kind set up immediately behind the screen when the picture appears.

At the public demonstration the program included sounds as varied as a pig's squeal and the tunc of a barrel organ, to arise from leading operas and a short speech of introduction was given by the same means in German, English and French. One number was a recitation, other features were vocal and instrumental, and one act of a drama was reproduced. In the last mentioned the tinkling of a hand-bell rung by one of the characters was heard coinciding with the movement in the picture, and the footsteps of actors walking about a bare floor were reproduced realistically in sound.

Another section of the program there was the very life-like barking of dogs, and the sounds of the animal's claws could be distinctly heard as it moved restlessly about on a wooden bench.

Generally speaking, the reproduction appeared to function better for staccato sounds, such as the notes of the xylophone, flute, clarinet, and mandolin. In violin and cello playing, and in singing tones of every high or very low register, there was considerable mechanical scraping such as one hears from a worn record on a talking machine.

# MAROONED WITH ESKIMOS, AVIATORS READY TO FLY OVER NORTH POLE

UPPER ROW: LIEUTENANT OSKAR OMDAHL (LEFT), NORWEGIAN AVIATOR, AND CAPTAIN AMUNDSEN, WHO WILL TRY TO FLY OVER NORTH POLE; WAINWRIGHT HARBOR IN JULY, SHOWING ICE CONDITIONS; NUSHUNGINYA, NORTHERNMOST MAIL MAN, BELOW: WAINWRIGHT'S ESKIMO POPULATION; SUMMER VIEW OF VILLAGE.

BY ROBERT E. BERMAN

NEA Staff Correspondent

Seattle, Wash., Nov. 3.—A winter with only one white couple for companions. A diet of whale, walrus and reindeer meat. And never a sight of the sun during the whole period.

That is the program of Captain Roald Amundsen, south pole discoverer, and his Norwegian flyer, Oskar Omdahl, while they are spending the coming winter at Wainwright, Alaska, pending their attempted flight "over the top of the earth."

Amundsen and Omdahl plan to hop off next spring for a non-stop airplane flight over the north pole. This is a reconnaissance mission for Amundsen's schooner Maud, now frozen in the arctic ice and well started on its five-year drift through the polar basin and across the north pole.

## Brings Last Word

The last word that will be received from Amundsen before he hops off on his death-daring flight was brought to Seattle by E. J. Ward, of the federal Bureau of Education. Ward has just returned from Wainwright, where he was government school teacher until relieved by Mr. and Mrs. R. J. Cramer.

It is Mr. and Mrs. Cramer who will spend the winter with Amundsen and his aide. Otherwise, their only companions will be some 200 Eskimos, comprising the population of the entire community of Wainwright and two adjoining villages.

"It won't be so bad, though," said Ward. "They'll have plenty of food. The Eskimos recently killed two big whales and a number of walruses, and buried in the ice, this food will keep indefinitely. Also, there's the herd of 4000 reindeer, which the natives maintain."

School Serves Them

"And when he wants anything—well, all he'll have to do is go to the school house. The government school in Alaska, you know, is the center of everything. It's the store, the postoffice, the church, the city hall, the coal mine and reindeer farm offices, the hospital—everything. People are brought into life in the school. They study there and later work there. They get married there, too—and then, when they die, their funerals are held in the school."

Ward brought back the first explanation that has been advanced for Amundsen's decision to hop off from Wainwright, instead of Point Barrow, as originally planned.

"Some people think," said Ward, "that it was because Wainwright is on the same meridian as Spitzbergen, his destination—making it possible for him to fly absolutely straight—due north and then due south, trading the meridian."

The real reason, in my opinion, is the fact that flying from Wainwright will give him from 50 to 70 miles of grace from death. By taking a northeasterly course, he can follow the coast until he reaches Point Barrow—and thus have an opportunity to land safely if engine trouble develops early.

If Amundsen is successful, news will be flashed immediately from Spitzbergen. But the world will not know for two months and more if he falls and is killed.

"Wainwright," says Ward, "is so cut off from the rest of the world that even in summer time it takes two months for mail to reach the coast of Bering Sea, the nearest point from which any

news can be broadcasted. Nushunginya, the Eskimo mailman, has the longest mail route in existence. It extends from Point Barrow to Kotzebue, 750 miles, and is covered only three times a year.

## Plans No Stops

"Even if mail happens to leave the very day of Amundsen's departure, the world won't know that he has left for weeks and weeks. It's by the time the news of his departure reaches civilization, no word has been received of his arrival in Spitzbergen, it can be safely said that he is dead."

Ward said Amundsen is waiting until he can make the entire 1700-mile trip in daylight—and this season it lasts only from May 10 to Aug. 5.

"He can't possibly leave until June, however," Ward went on, "as weather conditions are so bad. Last July, for instance, there were only four days when a blizzard wasn't raging. If he's lucky, though, he may get off by June 1."

## FORD'S REASON FOR REDUCTION IN CAR PRICES

According to a statement just issued by Edsel B. Ford, President of the Ford Motor Company, Detroit, a general reduction of \$50.00 a car has been made on the prices of Ford Model T Cars and the Ford 1-Ton Trucks, effective October 17th.

"The reduction in prices," said Mr. Ford, "is the result of the increased volume of business which our company has enjoyed during the present year, also, to the fact that we now own and operate many of our own sources of raw material, which enables us to continue increasing the quality of our product and at the same time keep the price so low that Ford cars are in reach of everybody."

"Our production for 1922 is already in excess of a million, which has been an important factor in bringing down costs. Our present daily output is averaging better than 5,000 cars and trucks, which means a complete Ford Car or Truck every 5-1-2 seconds of each eight hour working day. It is in anticipation of this continued demand that price adjustments are again being made in order to keep in effect the policy of selling Ford products at the lowest price consistent with quality."

"Quality, as usual," said Mr. Ford "will continue to be a prime consideration in the building of Ford cars. As our business has increased we have constantly increased our equipment and manufacturing facilities, so that this price reduction merely reflects the progressive methods which come as a result of increased volume."

"This reduction, which is the sixth since March, 1920, brings the price of the Ford Touring Car from \$575.00, the price in effect early in 1920, to the present extremely low price of \$298.00, which is nearly 50 percent less. Corresponding reductions have been made on all other types."

The new prices by types follow: Touring, \$298; Roadster, \$269; Chassis \$236; Coupe \$530; Sedan \$595; Truck \$580.

## COIN EXPERT TO TALK IN AMERICA

Berlin, Nov. 3.—Among three prominent German numismatists who have accepted invitations to lecture before American universities, the coming winter is Professor Behrman Pick, director of the Gotha collection of coins. The Gotha exhibit was established in 1712 and includes 100,000 pieces, its Greek and Roman series being especially noteworthy.

Doctor Pick also is a lecturer at Jena university. His tour in the United States, during which he will discuss numismatics at various seats of learning, will begin in October.

Doctor J. Elbogen, professor of history and literature of the Jews at the Berlin college for the study of Judaism, and Rabbi Doctor Perlis, of Koenigsberg, have been engaged for three months of lectures in America. They are to appear in the curriculum of the Jewish Institute for Religion recently founded by Dr. Stephen S. Wise, and will speak on

## Jewish history and Biblical interpretation.

# AUSTRIA PUTS HEAVY BURDEN ON UTILITIES

## In Desperate Straights For Revenue Taxes All Kinds Of Public Service

Vienna, Nov. 2.—In its desperate effort to raise revenue, the government is laying heavy hands on public utility tariffs. Within the past month postage has been increased three fold, external telegraph rates 200 per cent, and railway passenger rates 18 fold. Today an increase in telephone charges is announced which, in addition to a recent increase, makes a 12 fold advance over August.

At the present rate of exchange 19 calls a day, the Austrian minimum costs \$12 a month; 20 calls, 26; 30 calls \$52, and special tariffs above that. Austria has no unlimited service.

In this connection the Neue Freie Presse asserts that an American group, more than three months ago, approached the government with a view to taking over the telephone service, but has received no reply to its proposal.

There is a general demand that the post, telephone and telegraph administrations be again consolidated under one department. The Social Democratic government, when in power, separated the post from the other two and created a new department with a great increase in personnel. This proposed consolidated, however, involves the formidable problem of decreasing the number of employees, something at which every ministry has balked.

## KNOW REPAIR COSTS BEFORE YOU BUY AUTO

BY JOHN N. WILLYS

President Willys-Overland Company.

With the rapid development of the automobile and methods of manufacture, the question of servicing the product has to some extent not received the attention it deserves.

It is an undisputed fact that a satisfied customer is the greatest asset of the manufacturer of any commodity. Some effort has been spent in the direction of giving car owners prompt and efficient service, but the time has come when service, the dominant phase of the automobile business, must have further attention.

With the thought of giving Over-

land and Willys-Knight owners the best service possible, with the elimination of the worry of how much it is going to cost, we have adopted a flat rate plan in all our branches.

We find that this plan is proving very popular with our patrons. The outstanding feature is that the car owner knows exactly what the expense is going to be before he leaves his car to be worked on. The satisfaction is obvious.

It is our intention to install this plan in every Overland and Willys-Knight service station in the country. We have gone to a great expense in establishing the rates to adjust a car in any condition. These have been put at the lowest point consistent with good workmanship. The information has been compiled in booklet form for distribution to our dealer organization.

To give an illustration of just how the plan functions: Suppose that a Willys-Overland car owner drives his car into the service station and asks to have the brakes relined or other repairs made. An expert diagnostician confirms that order, making sure that such adjustments are necessary. The order is then written and the owner informed exactly what the expense will be. A very comfortable feeling indeed.

## BEGGAR WITH LIMOUSINE IS KNOWN IN N. D.

Dickinson, N. D., Nov. 1.—Years ago a Dunn county young man, whose limbs had been made useless by a terrible mauling; left the claim where he faced starvation and went out into the world to make his way by other means than farming. The other day this same man who has become known over the entire nation and particularly in New York City as the "legless beggar" was arrested on Fifth Avenue. Immediately he picked up the astonished patrolman in his \$8,000 limousine and drove him to the police station where he deposited \$100 as bail for his appearance in court the following day.

The "legless beggar," of reputed to be worth more than a million, was none other than Fred Hummill who is well known to Dickinson residents as well as to people in the north country where he made his home for several years. He now has vast land interests, both in North Dakota and Montana.

The car which he was driving had been made to order so that he could drive it entirely with his hands. He sat between two wheelers which he manipulated on control gears, brakes and gasoline. The car was also equipped with cooking and sleeping facilities.

For many years Hummill visited Dickinson regularly. Then he suddenly disappeared and nothing further was heard from him until the other day when the item covering his arrest was published in the Twin City papers.

# RADIO SETS IN NORTH DAKOTA ON INCREASE

## Reported There Are Now 1,000 Receiving Sets in This State

Fargo, N. D., Nov. 2.—There are about 1,000 radio receiving stations operated by amateurs in North Dakota, according to an estimate by Earl Reinke who is connected with the Fargo (WDAY) sending station.

The state stands just at the opening of radio development he declares, due to the fact that the big stations have only recently begun to move west from the Atlantic coast. In addition the Fargo station now broadcasts a program from 7:30 to 8:00 and sometimes longer each evening as well as sending out the weather report at 12:15 each day.

The programs consist of music, market and important news items, as well as reports of football games. The Fargo station is "getting out" well according to Mr. Reinke. It has been heard as far west as Seattle, Wash., and Portland, Ore., as far south as New Orleans, and as far east as Parkersburg, Penn., and Brocton, N. Y.

The receiving amateurs in the state are scattered according to population. Mr. Reinke says, most of them being in the eastern part as yet. He believes that there soon will be a large increase in the use of radio phones, especially among the farmers, living in isolated sections of the state because "for the price of a good phonograph he can bring entertainment into his own home on winter nights." Beside the entertainment feature the radio will carry in markets and weather reports, he adds.

Among the large stations of the country which have recently been established nearer this section Mr. Reinke named the station of the Palmer School of Chiropractic at Davenport, Ia., and the one at the Sweeney Auto School at Kansas City, Mo.

The amount of amateur equipment installed in parts of the country where radio facilities are of longer standing is enormous he says. During the twelve months previous to last March, \$100,000,000 had been spent for the radio equipment and in March the sales had risen to \$3,000,000 a week. This all happened before broadcasting facilities in this state had become general and so the game of tapping the other for some and story is just in its infancy here and due for further development according to Mr. Reinke.

LOSSES CERTIFIED

The State Mail department has certified to the State Auditor the bail losses for ten counties and the auditors department will make immediate efforts to have all of the warrants so they may be delivered or mailed by December 1st, the date they are due and when interest begins upon them. The warrants will be held in the office of the auditor until such time as it is possible to mail them out as they will reach the destination, December 1st.

# STOMACH BAD!! MEALS SOUR, INDIGESTION!

Instantly! End Flatulence, Gas, Heartburn, Indigestion

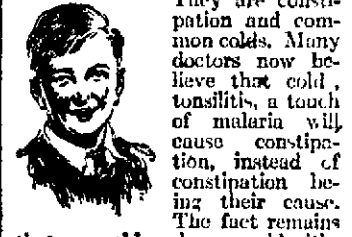

Chew a few! Stomach fine! So pleasant, so inexpensive, so quick to settle an upset stomach. The moment "Pape's Diapepsin" reaches the stomach all pain, and distress from indigestion or a sour, gassy stomach vanishes. Millions know its magic. All druggists recommend this harmless stomach corrective.

# This Will Ward Off And Break Up Colds

Just a teaspoonful of Dr. Caldwell's Syrup Pepsin removes the congestion

ANY FAMILY MAY TRY IT FREE

THE two ailments that people generally regard as of the least importance are in reality the cause of the greatest proportion of deaths.

They are constipation and common colds. Many doctors now believe that cold, tonsillitis, a touch of malaria will cause constipation, instead of constipation being the cause. The fact remains that you seldom have a cold without constipation, due to general congestion. The only way to avoid colds is to keep up your vitality. You usually catch cold in the winter if you are run down. Therefore in cold weather eat more, eat more fatty foods, drink four to six glasses of water a day; keep the head cool, the feet warm, the bowels open.

You are also less liable to colds if your system is free from the intestinal poisons of constipation. So empty the bowels regularly with a plain vegetable laxative like Dr. Caldwell's Syrup Pepsin.

At the first sign of a cold, at the first few warning sneezes, take a teaspoonful of Syrup Pepsin and the congestion will be gone in a few hours. Don't wait until the cold has a grip on you. Mr. H. C. Dean, Jr., of Rochester, N. Y., cured a stubborn cold in just that way, and Mrs. Alice Corbrey of Haskell, Okla., uses it effectively for all the small ills of her family, such as constipation, biliousness, headaches, dizziness, and to break up fevers and colds.

Dr. Caldwell's Syrup Pepsin is a scientifically-balanced compound of Egyptian senna with pleasant-tasting aromatics. It is safe to give to infants, and all children like it. Before you again resort to cold remedies containing narcotics try a teaspoonful of Syrup Pepsin. Any druggist will supply you, and the cost is less than a cent a dose.

# TAKE DR. CALDWELL'S SYRUP PEPSIN The family laxative

Foreign-born farmers are most numerous in the north central states. There are few in the south, except in Texas.

# Eatmor Cranberries From Nature's own Laboratory

A cunning theft from the soil—a whiff of the sea—a tinge of frost—and you have the most healthful—most zestful of fruits—Cranberries! Cranberries are also the most economical of fruits—moderate in cost—easiest to prepare—quickest to cook—and there is no waste!

Try this recipe:

Cranberry Sauce

One quart cranberries, two cups boiling water, 1 1/2 to 2 cups sugar. Boil sugar and water together for five minutes; skim; add the cranberries and boil without stirring (five minutes is usually sufficient) until all the skins are broken. Remove from the fire when the popping stops.

Always cook cranberries in porcelain-lined, enameled, or aluminum vessels.

To be sure of a selection of the choicest varieties—ask for Eatmor Cranberries.

A folder containing recipes for other ways to use and preserve cranberries, sent free.

son, half backs are only recovering from serious hurts.  
Two thousand students took the team to the train last night and gave them a demonstration that brought assurances from the players that they were coming back with the Gopher's bacon.

**BANDITS SHOT ATTEMPTING TO LOOT TRAIN**

(Continued from Page One)  
Justifiable Homicide  
Inspector Bob Ward of St. Louis, in charge of the officers, said the bodies of the two robbers were found with revolvers clutched in their hands. A coroner's jury returned a verdict of justifiable homicide.

Describing the robbery, inspectors said that Kennedy and his pal stopped the train, No. 805, running from St. Louis to Memphis, at Seventy-six, a station seven and one half miles north of here. Kennedy's pal cut the mail and express car from the rest of the train. The engineer and fireman were ordered off the locomotive, and Kennedy, who is said to have had railroad experience, drove the two cars down the track several miles in this direction. Stopping the locomotive, the two bandits entered the mail car. The three clerks were lined up against a wall of the car. Kennedy inspected the mail, taking several pouches to the cab of the locomotive. The locomotive then was detached from the two cars and Kennedy and his companion rode to Wittenberg. About 150 yards from the local station and near the spot where their automobile was parked the two jumped from the engine. Concealed in the brush nearby were the officers.

Shouts Command  
Inspector Ward shouted the command to halt. There was a bright moonlight and the robbers, according to Ward, were seen to reach for their weapons. Several of the officers opened fire at once, and the bandits fell.  
Kennedy has a record of seven train robberies within three years, 1896-99—and had served 12 years in the Missouri penitentiary for the latest of those robberies. He has been at liberty since 1912, and his movements for the last several weeks have been under surveillance. Kennedy was 53 years old and Logan 23.

Lake Baikal, in Siberia, comes between Lake Erie and Lake Huron in point of size.

**Girl Abandoned In Swamp Shows Improvement**

Muskegon, Mich., Nov. 3.—Rosalie Shanty, the 11 year old swimming star, who was kidnapped Sunday and abandoned in the jack pine wilderness of Manistee county, probably will be brought back to Muskegon late today or tomorrow, it was said at the child's home here today.

Rosalie's condition had improved late last night to such an extent physicians believed she could be brought to a hospital here.  
The girl was still in a high nervous state and no effort was made to gain from her the story of her two days wandering through the forests.  
The abductor of the girl, Raymond F. Wilson, entered Marquette prison today where he was sentenced to serve from 35 to 40 years.

Salt Lake City—Air mail service out of Salt Lake was abandoned because of heavy snow.

**Oats for women who are rushed**

Your grocer now has *Instant Quaker Oats*, the quickest cooking oats in the world. It cooks to perfection in 3 to 5 minutes.

The same extra quality as in regular Quaker Oats. Both are flaked from queen grains only—just the rich, plump, savory oats. Both have that matchless flavor which makes Quaker Oats supreme.

But in *Instant Quaker* the oats are cut before flaking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner—that is all. And the small thin flakes cook quickly.

Get the style you want. The *Instant Quaker* is marked "Instant" on the label.

**Instant Quaker Oats**  
Cook in 3 to 5 minutes

**YOUR DRUGGIST**  
Does not keep Pinkham's Compound. He sells it.  
During the year 1920, nearly 3,000,000 bottles of this medicine were shipped from the factory at Lynn, Massachusetts. There is also a

branch in Canada and one in Mexico. Lydia E. Pinkham's Vegetable Compound has the largest sale of any medicine for women's ailments. Every day, more and more women are proving its worth. Made of selected roots and herbs, this compound contains no harmful drugs and can be taken in safety by any woman.

**A WORD ABOUT MEATS.**

This year is unusual in the meat business, an abundance of nutritious grass and cheap grain enables the farmer to produce the finest live stock North Dakota has ever had. Men who know the meat business realize it is cheaper and much better to purchase choice live stock on the farms as they can make a better selection of grain fed animals and secure exactly the quality and number they desire. By allowing the farmer to feed grain on the farm a big saving in freight is made.

We do not purchase Veal, Mutton, for beef with a view of being able to sell cheap stews, pot roasts, liver. We personally select each animal, and quality is our first consideration. Here are a few prices for choicest cuts.

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

**LA FOLLETTE'S POISON GAS**  
Senator La Follette doesn't simply stand up for his war record; he glories in it; he goes quite out of his way in this campaign to stress the part he played and to cheer at those who believed and acted on the belief that America's part in the World War was an honorable part.

According to the La Follette view, to use the senator's own words, "we were led into the war" and "led to all through the war." We were "pushed into the war to save the Morgan money." After going on in this vein at considerable length in his Bismarck, N. D., speech, La Follette said he had voted against the war against Germany and that he had been thanking God for that vote ever since. When he was through with the war he proceeded to denounce Theodore Roosevelt in death as he had denounced him in life. He said: "When he (Roosevelt) was president every time he had to adjust the scales he fixed them for the money, not for the people."

This is the man—wearing falsely a Republican label—who has invaded North Dakota to plead for the election of Lynn J. Frazier, and is now in Minnesota to ask the people to vote for Dr. Henrik Shipstead and to defeat Senator Kellogg.

Frazier and Shipstead—both of them came out of obscurity into the public eye at the highest of men who shouted themselves hoarse in approval of sentiments uttered in 1917 by La Follette in his notorious St. Paul speech; and those sentiments were exactly the ones La Follette is uttering now in the course of his plea for Frazier and Shipstead.

It is hard to believe that even in the former Township stronghold in North Dakota there were many to applaud La Follette's denunciation of the war record of the country or to listen without protest to a bitter exclamation of a great American now dead. And yet it is common knowledge that the radical organs of the Northwest have looked to La Follette as the "topliner" who might be counted on to turn the tide for Frazier and Shipstead and put them over as victors next Tuesday. Surely, it cannot be that any straight-thinking man or woman of Minnesota listens with patience to these La Follette tirades.—Minneapolis Tribune.

**CROWNED AFTER EIGHT YEARS OF WAITING**

The splendor of crime and robes revived the glittering formalities of former days at the belated coronation of King Ferdinand and Queen Marie of Rumania. They had taken the throne in October, 1911, but the war and reconstruction of the past four years held up the royal ceremonies until now. The pictures show the splendor in which the coronation was held. The King is placing the crown on the head of the kneeling queen.

**GAINED TWENTY POUNDS AND FEELS FINE**

**Tom Sims Says**

"Tanlac have overcome my troubles, built me up twenty pounds, and I am more thankful than I can express in words," declared Mrs. A. Nordien, 125 W. Superior St., Duluth, Minn.

"For a whole year I had indigestion so bad I could hardly retain a thing on my stomach. I would turn almost deathly sick soon after eating and just suffering agony. I kept losing weight and gradually getting worse till I simply dreaded the sight of food."

"Tanlac changed things around for me very quickly. I have a good appetite now and everything I eat agrees with me perfectly. I am more than glad to say a good word for Tanlac."

Tanlac is sold by all good druggists.

They say radio never will supplant newspapers. Now let's find out if women's clubs will.

Less than two months until time to buy an auto license.

It doesn't matter, but Metaxakis the patriarch sounds like kissing a girl in a taxi.

Women don't throw rolling pins as they once did because now they have no rolling pins.

A wife is a great comfort to her husband during those distressing times a bachelor never has.

What's in a name? Barefoot Dancer Isadora Duncan's orchestra leader's first name is Modest.

Men who left their vests off to make a summer suit are putting them on to make a winter suit.

Why don't the British leave us alone? Kipling made faces at us and now Tom Lipton claims we are drinking more tea.

Secretary Weeks has been arguing for months and months.

The almanac predicts a ten-ton winter.

Days are getting too short, but then the nights are longer.

Can't two keep warm cheaper than one?

**McCUMBER ON THE TARIFF**  
The Fordney-McCumber bill, attacked probably more than any other tariff bill from within the party, is working out satisfactorily in the opinion of Senator McCumber. The senior senator from North Dakota, returning to Washington after a short vacation seeking to improve his health, points out that instead of prohibiting trade with Europe the records show that since the Fordney-McCumber tariff bill was enacted imports from Europe have increased. Tariff revenue also has increased at a time when more money is sorely needed by the government. The senator also reports his former assertion that the bill will not cause an increase in prices on manufactured goods and that Northwest agriculture will be aided by the tariff upon importation of certain articles raised in other countries where the standard of living on the farm is lower than in America. The hue and cry raised against the bill just before its passage is subsiding. Former Senator Beveridge, Republican candidate in Indiana and long known as a progressive, declares the bill is a good bill, especially in its provisions for permitting adjustment to be made by the President on recommendation of a board of tariff experts. It has been a score of years since it was first urged in the senate that the tariff be taken out of politics, the principle of the protective tariff permanently adopted and a commission named to adjust the tariff to protect American workers on their present standard of living. Perhaps the Fordney-McCumber bill will accomplish this and if so Senator McCumber will have this among many other accomplishments to look back upon when he ends his long career of public service in the United States Senate.

**COMPLAINTS ON CRIME NEWS**  
Newspapers are filled with news of crime. A double-column in New Jersey, a slaying in Montana, bank and train robberies—these apparently predominate in the news of the last two weeks. There are many who complain and feel that the newspapers endeavor to print all the salacious details of crime in every part of the country. The newspaper is the medium of all classes, and all classes of news are printed. But it is a mistake to assume that the great majority of newspapers seek to dig out all of the waywardness of the world and herald it to the readers. How many read the markets and the news of the great financial centers of the world each day in The Tribune? How the pulse of the financial world is recorded and through it observant and studious persons may judge the course of business, the trend of conditions which vitally affect North Dakota. Skilled editors of great press associations have learned the kind of news that must be printed. It is the unusual, and even with the abundance of crime in America the law-breakers are in the minority and murders are infrequent. There are many who read the crime news for sheer enjoyment, and there are deep students who read in the crime news definite tendencies in modern American life.

A newspaper's business is to print the news. It is not always pleasant to do so, but it is the business of the newspaper.

**The FLAMING JEWELS**

(Continued From Our Last Issue)

**CHAPTER II**  
Quintana, on a fox-trail along the rock-trail into Drowned Valley, now thoroughly understood that it was the only sanctuary left him for the moment. Eerily to the southwest was closed; to the eastward, also, and he was too wary to venture to ward Ghost Lake.

No, the only temporary safety lay in the swampy, boggy Drowned Valley. He meant to settle matters with Mike Clinch anyway. He was not afraid of Clinch; not really afraid of anybody. It had been the dogs that demoralized Quintana. He'd had no experience with hunting hounds—did not know what to expect—how to maneuver. If only he could have seen these beasts that filled the forest with their hobgoblin outcries—if he could have had a good look at the creatures who gave forth that weird, melancholy volume of sound—

"Hoo!" he said coolly to himself. "It was a crisis of nerves which I experienced. Yes, I should have shot him, that fat Sarge. Yes, only those damn dogs. And now he shall die and not that fat Sarge all by himself, parlor—him one big dead thing all alone in the wood. A puddle of guts full of diamonds! Ah! mon dieu! a million francs in gems that shine like festering stars in this damn wood till the world end. Ah, bah, home de dieu de—"

"Halt!" came a sharp voice from the cedar fringe in front. A pause, then recognition; and Henri Piquet walked out on the broad ridge beyond and stood leaning on his rifle and looking sullenly at his leader.

Quintana came forward, carelessly, a disagreeable expression in his eyes and on his narrow lips, and continued on past Piquet.

The latter slouched after his leader, who had walked over to the bank to before which a pile of charred logs lay in cold ashes.

"As Piquet came up, Quintana turned on him, with a gesture toward the extinguished fire: 'It is cold like hell,' he said 'Why do you not have some fire?'

"Not for me, non," growled Piquet, and jerked a dirty thumb in the direction of the lean-to.

And there Quintana saw a pair of muddy boots protruding from a blanket.

"It is Harry Beck, yes?" he inquired. Then something about the boots and the blanket silenced him. He kept his eyes on them for a full minute, then walked into the lean-to. The blanket also covered Harry Beck's feet, and there was a stain in it where it outlined the prostrate man's features, making a ridge over the body nose.

After a moment Quintana looked around at Piquet:

"So, he is dead, yes?"

Piquet shrugged: "Since noon, mon capitaine."

"Comment?"

"How shall I know? It was the fire, perhaps, green wood or wet, it is no matter now. I said to him, 'Pay attention, Henri! Your wood makes too much smoke. You must stop it. I shall go to hell.' Well, there was too much smoke for me. I arose to scratch for wood more dry, when, crack! they began to shoot on their—He waved a dirty hand toward the forest."

"Bon, said P. 'Clinch, he have your damn smoke!'

"What shall I care?" he made reply, Henri Beck, to me. 'Clinch he shall shoot and be damn to him. I cook me my dejeuner all the same."

"I make representations to that Johnbull, but say to me that I am from, and other injuries, while he lay yet more wood on his sacré fire."

"Then crack! crack! crack! and a bang! when—of course the log bullets of Clinch and his voracious sonder."

"Bon! I say, me, I make an even to retire."

"Then Henri Beck he laugh and say, 'Don't it, frog!' And then he has fired time to say when crack! spit! Bon! he has it, then, non capitaine here, over the hill, over the hill."

"Like a beef, up to the go over, crash! thump! And like a beef that dies, there are be to out from his big lungs."

Piquet looked down at the dead carcass in a sort of stony, despairing way for such stupidity.

"So he put this result on that Johnbull, yes? Me I don't know, I don't know. Me I don't know, I don't know. Then I put out the fire and

**MANDAN NEWS**

**Funeral Services For Geo. Menke**

Funeral services for George Menke, well known young farmer of this neighborhood who was killed Tuesday when run over in the railroad yards will be held tomorrow afternoon at 2 o'clock from the Lutheran church.

Members of the American Legion and Veterans of Foreign Wars and other service men will aid in giving him a military funeral. The pallbearers will be young farmers who saw service during the recent war and will include Fred Dieter, Otto and Emil Hagerott, Carl Keidel, Jake Seigel, and M. Duffy.

Mr. Menke was one of the first Morton county men to leave for war service. After training he was assigned to duty with the 15th Artillery, the famous Minnesota unit of the 80th division commanded by Colonel Leach and was with the fighting organization through the St. Mihiel and Argonne drives.

Mr. and Mrs. E. G. Ufer of Lambert, Mont., arrived in Mandan Wednesday evening to attend the funeral of the late Margaret Bannister.

A Parent-Teachers dance will be given this evening at the high school auditorium.

Funeral services for Miss Maggie Bannister will be held at 1:15 o'clock this afternoon from the Presbyterian church, Mr. and Mrs. William Bannister, of Seattle, Wash., uncle and aunt of the deceased, are expected to be present for the funeral.

Mr. A. Boley left Wednesday for Jamestown, where she will spend the winter with her daughter, Mrs. Claude Henderson.

Mrs. and Mrs. H. C. Taylor and daughter left yesterday for the Twin Cities, where they will remain until after the Minnesota-Wisconsin football game and then leave for Tipton, Ga., where Mr. Taylor has property interests. They will visit in Florida during the winter also.

Mrs. J. F. Sullivan and son, John, Jr., left yesterday for Minneapolis, where they will make their home for several months.

A marriage license was issued yesterday morning by County Judge Shaw to Jack Schimpf of Yucca and Rose Stroh of St. Anthony. A license was issued in the afternoon to George G. Hoffman and Elizabeth Gehard, both of St. Anthony.

Anton Geiger of Solen was brought to the Deaconess hospital yesterday for treatment. He is suffering from typhoid fever.

Mrs. H. W. Tuckberry left yesterday for Mott for several days' visit with friends.

J. W. Hintzen has rented the Connelly residence on Fourth Ave. N. W., and moved in yesterday. The Connelly sisters will make their home at the Lewis & Clark during the winter.

Miss Mabel Brady of Chicago, and Mrs. George Ames of Hastings, Minn., sister and half sister of the late Sheriff Jack Brady, arrived in Mandan Monday morning. The received word too late to arrive here in time for the funeral.

**LOOK!**  
An "auto" that was used 2300 years ago in Alexandria, Egypt, is described by Dr. James H. Breasted of University of Chicago.

Records found by Breasted show that this ancient machine made only two trips a year, hauling the statue of a goddess back and forth between her summer and winter temples, a mile apart.

The motive power was a sort of huge spring, like in a child's toy auto. When released, it shot the car to its destination as if a modern speeder were driving. Not so bad for 2300 years ago.

**THE RIGHT TO WORK**  
Critics of the Administration's slogan, "the right to work," while forced to admit its soundness, maintain that it should be pressed with equal force in times of strikes. They assert that unemployment is really a strike of capital in the face of unfavorable conditions and if the right to work is pressed in one case it should be pressed in the other.

At first thought this may seem good argument. But it is reasoning from analogy with factors that are not equal. A strike simply indicates areas of dissatisfaction within the industrial order. Unemployment is a complex beyond the power either of employers or employees to control, in which both are caught.

No one denies to employees the right to quit work when they see fit. The weakness of the trade union position lies in its refusal to other workers of the right to take the abandoned jobs. The employer who releases down does not refuse to other employers the right to continue if they can. He simply says that he cannot continue under conditions as they exist. On this crucial point the analogy falls down.

Moreover, the ethics of the strike differ completely from those of unemployment. A strike is designed to stop production in order to win better terms of employment. In unemployment both employers and employees wish to continue production if possible.

The Government cannot compel a man to work against his will, but neither can it compel a man to operate his business as a loss. The Government can and should protect workers in the right to work, even as it can and should protect employers in the right to carry on, if they can during an unemployment depression.

This argument from analogy appears valid on its surface, but a little analysis shows that there are few points of likeness between strikes and unemployment. The conditions in the two cases differ as well as the motives.—Minneapolis Journal.

**EVERETT TRUE BY CONDO**

NO, MRS. TRUE, I DON'T WANT TO GO TO THAT SHOW TONIGHT! THERE'S ENOUGH TRAGEDY IN THIS LIFE WITHOUT PAYING TO SEE MORE! "EMOTIONAL ACTRESS!" I DON'T NEED TO GO TO ANY THEATER TO SEE A TEMPERAMENTAL WOMAN THROW FITS OF HYSTERIA AND WEEP REAL TEARS!

AND I DON'T HAVE TO GO TO ANY THEATER EITHER TO SEE A HEARTLESS HEAVY VILLIAN!!!

**ADVENTURE OF THE TWINS**  
By Olive Barton Roberts

The next person Nancy and Nick saw was little Miss Muffet.

But you'd never have believed it was she, for there was no bowl of curds and whey, and no tuffet, and much to Nancy's relief, no spider sitting "beside" her either.

"What brought you away up here in the sky?" asked Miss Muffet curiously.

"Didn't you know?" exclaimed Nancy. "Mother Goose had lost her broom, and the cobwebs are getting thicker every day. We've come to find it."

"Ugh!" exclaimed Miss Muffet. "I suppose then the spiders will be getting worse, too, and I've troubles enough as it is. But let us talk of something else. What are the fashions now down on the earth where you live? So few people come up here and I'm afraid I'll get old-fashioned and out of date. Do little girls wear pinafores still? And are polka bonnets so fashionable as they were? And what is the newest shade of yarn for working samplers? Are long curls the style?"

"Pinafores?" Nancy puckered up her brows in a puzzled way. Then suddenly she smiled. "Oh, yes. You've got one on, haven't you? No, little girls wear bloomers and knickerbockers now to play in. And they don't wear hats at all when they can help it. And they don't make samplers any more. They haven't the patience. And curds and whey are not popular. Soda and sodas are much better. And long curls were such a nuisance they had 'em bobbed like mine."

"My, it must be a nice world!" sighed Miss Muffet. "I'd like so much to see it. I wonder if I ever shall get away from Mother Goose Land."

Nick nodded comfortably. "Oh, you'll get there sometime, I'm sure," he said. "They're making machines to fly with and it won't be long till they get to the stars."

"I hope so," said Miss Muffet. "And the first thing I do will be to go shopping."

(To Be Continued.)  
(Copyright, 1922, NEA Service.)

The average depth of all the oceans, gulfs and seas is estimated at from two to two and one-half miles.

**BOOMING**  
A shortage of 141,232 freight cars existed October '8, reports the American Railway Association. And the shortage is growing.

Nine months ago, on January 8, the railroads had a surplus of 646,673 idle cars.

A comparison of the figures informs you more about business conditions than you could get by reading a mile of the average financial news. When railroads move freight on a big scale, people are buying and selling on a big scale. That makes prosperity.

**BREAK A COLD IN FEW HOURS**

"Pape's Cold Compound" Acts Quick, Costs Little, and Never Sickens!

Every drugstore here guarantees each package of "Pape's Cold Compound" to break up any cold and end trouble in under a few hours, or money returned. Stiffness, pain, headache, feverishness, inflammation, congested nose and head relieved with first dose. These safe, pleasant tablets cost only a few cents and melt in the mouth instead of burning the throat.

**INCORPORATIONS**

Articles of incorporation filed with the Secretary of State include:

- Pawley Realty Co., Fargo; capital \$150,000; incorporators, Wm. Stern, Arthur W. Fowler, Sam Stern.
- Bowman Motor Co., Bowman; capital \$25,000; incorporators, Fred Forster, Anna M. Forster, Minneapolis; Fred M. Forster, Bowman.

In California and Arizona a plant called the Devil's Bur punctures automobile tires with its spiny seeds.

## Girls Will Sell Forget-Me-Nots Here Tomorrow

A large number of girls will engage in the sale of Forget-Me-Nots on "Forget-Me-Not Day" in Bismarck tomorrow, the proceeds going to disabled American veterans of the world war. The city campaign will be under the direction of Mrs. R. A. Tracy who will have headquarters in the Grand Pacific hotel. Girls who will sell flowers will be: Misses Annie Katz, Emma Coleman, Mildred Shogland, Winifred Hugelman, Mable Aaberg, Jeanette Buch, Ellen Coghlan, Dorothy Johnson, Lucile Kaline, Myrtle Miller, Majorie McCormick, Flora Faconer, Esther Tierney, Ethel Pollard, Hazel Lenhart, Betty Dunham, Katherine Smith, Ruth Rawlings, Mary Cayou, Kathleen Harris, Margaret McGarvey, Lillian Rigler, Gwen Jones, Louise Berndt, Helen Gross, Inez Gish, Genevieve Boise, Katherine McDonald.

In addition a committee of young men will assist in selling south of the main street.

Hearty cooperation has been received by the local chapter of the Disabled Veterans of the American World War. The sale will be nation-wide, and a proclamation endorsing it have been issued by President Harding. Members of the Home Economics department of the high school, under the direction of Miss Morris, teacher, made the large Forget-Me-Nots which were purchased by many merchants to be used for advertising the sale. Flowers were sold in the high school this afternoon. Flowers were sent to chairman located in surrounding towns for the purpose of selling to people in all vicinities. Mrs. Robert Orr is chairman for the Southwestern district of the state.

**WOMEN'S COMMUNITY COUNCIL**  
The regular meeting of the Women's community council will hold its regular meeting tomorrow afternoon at 3:30 o'clock at the vest room of the Masonic Temple. A report will be given by the chairman of the finance committee on the proceeds from the sale of tickets to "Sonny" for the benefit of the milk fund. All the returns had not been made today. All members are urged to be present, since important business for the coming season will be taken up.

**BIRTHDAY PARTY**  
Mrs. Lyman Morley entertained in honor of her husband's birthday yesterday evening, when 12 friends and neighbors were invited to help celebrate the occasion. Three tables of whist were played. Mrs. E. J. Goble received high score. At the close of the evening a birthday luncheon was served.

**ELKS DANCING PARTY**  
An elaborate dancing party will be held at the Grand Pacific hotel on November 10 by the Elks. It is announced today. Wagner's orchestra has been engaged to furnish music. The dance will be for Elks and their friends. Invitations now are being prepared.

**MARRIAGE LICENSES**  
Marriage licenses were issued yesterday by the county judge of Burleigh for Miss Theresa C. Schauer and Mark W. Koon, both of McKenzie, and Mrs. Katharina Wapfel and Gottlieb Lesko, both of Arena.

**WILL MOVE**  
W. J. Corrigan and family will move into the new Freeburg bungalow on the corner of Fourth and F streets sometime within the next ten days.

**RENNER-FROBEL MARRIAGE**  
The marriage of Miss Elizabeth Renner and Louis Frobel both of Mandan were united in marriage at the South Side Mission last evening.

Mrs. and Mrs. L. W. Harboud motored to Minot yesterday on business.

Mrs. Sara H. Clark is spending a few days in Minneapolis.

## Women Support County Agent For Burleigh

The women of the city are being organized for the purpose of uniting in their support of a county agent for Burleigh county.

Mrs. Dorothy Ayers Loudon of the home demonstration department at the Agricultural college has been spending the past two weeks in Bismarck and vicinity working with the women while Mr. Haw of the agricultural college has been here for the purpose of supporting a similar movement among the men of the city.

As a result of their efforts a woman has been appointed chairman for each block in Bismarck for the purpose of calling on her neighbors in that district and telling them about the county agent and urging that they vote for a county agent. They are pointing out that the election of a county agent not only means a specialist whose duty it is to aid the farmers in improving their marketing system and to aid them in decreasing the cost of production, but it means that the women of the county will have the benefit of the services of all the women specialists at the Agricultural college. The domestic art and domestic science specialists will come from the agricultural college to instruct and advise the women in food values and home dressmaking, sewing, and many other things pertaining to the home.

The men of the city had the ad-

vantages of a county agent explained to them at the Rotary luncheon Wednesday. At that time it was decided that the men of Bismarck should take it upon themselves to engage actively in urging upon the men the need for a county agent for Burleigh county.

**MEETINGS FO B. & P. W. CLUB.**  
All members of the B. & P. W. club are urged to be present at a meeting this evening at 7:15 in the club rooms. A very important matter is to be brought before the club.

**ILL WITH PNEUMONIA**  
Mrs. Christine Robidou, who is ill with pneumonia at the home of her daughter, Mrs. Arthur Bauer, is getting along as well as can be expected at the present time.

Mrs. L. F. Wilbur was called to Michigan by the illness of his mother.

## GIVE PARTY FOR BISMARCK CLUB

The Mandan B. & P. W. club delightfully entertained the Bismarck B. & P. W. club last evening at a very cleverly arranged Halloween party.

The club rooms were artistically decorated in autumn leaves, black and yellow ribbon streamers, corn shocks, pumpkins, black cats and witches. Misses W. E. Fitzsimons, L. N. Cary, Morgan Morris and Miss Vivian Brown had charge of the entertainment.

The evening was spent in dancing, timely games in keeping with the Halloween season, and a Gypsy fortune teller related the past, present and future to the guests.

At the close of the evening entertainment at the club rooms, the hostesses conducted the guests to the Commercial club where a dainty repast was served. The same color

scheme of yellow and black was carried out in the table decorations and the menu. Place cards of black withes on yellow broom sticks marked each place. A three-course dinner was served, after which a musical program, consisting of vocal and instrumental numbers by Misses W. E. Fitzsimons and Morgan Morris were rendered. The Bismarck club members returned at a late hour and the reports are that the affair was a most enjoyable closing for the Halloween season.

## CITY NEWS

**Baby Girl.**  
Mr. and Mrs. Robert Wilson of Mandan, announce the birth of a baby girl born at the Bismarck hospital.

**Announce Birth**  
Mr. and Mrs. Ben Schneider of Strasburg are the parents of an infant son born at the St. Alexius hospital.

**Baby Boy.**  
The birth of an infant son, born at the Bismarck hospital is announced by Mr. and Mrs. H. C. Hahlman of Bismarck.

**Takes Correspondence Job**  
G. N. Keniston, former secretary of the Commercial club, has accepted a position with the American Extension University of Los Angeles, a correspondence school, managing the work in North Dakota and Montana.

**Bismarck Hospital.**  
Mrs. I. D. Thue of Stanton, Cecil Beck of Center, Mrs. George Weyer of Krem, and Robert Waechter of

Glen Ullin, have entered the Bismarck hospital for treatment. Miss Blenda Braten of Halliday, George Magnus of Sterling, and Baby Martin Marks of Underwood, have been discharged from the hospital.

**Wins Promotion**  
Walter B. Penwarden, son of Mr. and Mrs. Richard Penwarden, who went to Graybull, Wyoming, last February to accept employment with the Aldredge and Buchanan Lumber Company, has been appointed manager of the company. It is an important position, as Graybull is near the center of the oil region. The Standard Oil Co. has a two million dollar investment near Graybull. Walter is a graduate of Bismarck high school, class of 1919.

**Special! Clay Pack Facials**

BISMARCK HIGH TEAM READY FOR WILLISTON GAME

TEAM CHEERED AS IT LEAVES HIGH SCHOOL

Coach Houser and 15 Players Drive Through to Minot

WILL PLAY TOMORROW

Bismarck high's "Demons" left for Minot this morning about 10 o'clock by automobile, to meet the Williston high school team in the semi-finals of the state championship at the Minot field tomorrow afternoon.

Fifteen players were taken by Coach Houser, who planned to give his team a workout in Minot late today if the cars reach there in time.

Just before the team left for the Magic City a rousing yell was given by the students of the high school.

It is expected that a large number of students and local people will go from here in the morning to see the game, which on "dope" should be one of the best high school games of the year.

Gloom was cast over the high school camp yesterday when it was reported that Terrence Halloran, the heavy little quarterback of the local team, had suffered a broken collar-bone. The report was, however, unfounded. Halloran hurt his shoulder in practice but left with the team and it was expected that he would be in fair shape to direct the Bismarck attack.

Williston is captained by Phillips, quarterback, who has a big reputation in high school circles. The team has the cutting system of attack and its scores for the season show that the team is working together in good shape.

Although Bismarck defeated Minot 12 to 0 and Williston won 14 to 13, the Williston team was forced to play the last half at Minot without Phillips and yet was held on Minot's two-yard line twice.

The Bismarck team will slightly outweigh Williston.

The local boys were hopeful that there would be a good field at Minot. The weather forecast for North Dakota today was for mostly cloudy to night and Saturday, colder tonight.

Berkeley—California vs. Washington State.

TEAM CARRYING B. H. S. COLORS

Upper row, left to right—Knudsen, Middaugh, Alfson, fullback; Burke, end; Kline, tackle; Benzer, center; Capt. Scott, tackle; Reed, guard; Hahn, half-back; Rhud, guard; Coach, "Dutch" Houser. Lower row, left to right—Brown, half-back; Murphy, Thomas, H. Svendsgaard, Garske, O'Hare, Halloran, quarter-back; J. Svendsgaard, Scruggs, ins. end.

The Bismarck high school football team, named the "Demons" by the high school supporters, is one of the best that has worn the maroon and white colors for many years. Though perhaps not excelling other teams in material, the team-play has been such under the coaching of "Dutch" Houser that a dangerous, smooth-working machine has been produced. It is the first team in years to take the southwestern high school title from Mandan, and will compete in the state semi-finals.

Portland—Oregon Aggies vs. Multnomah.  
Stanford—Stanford vs. Nevada.  
Bozeman—Montana Aggies vs. New Mexico Aggies.  
Boulder—Colorado Aggies vs. Colorado University.  
Salt Lake—Colorado Aggies vs. Univ. Utah.  
San Francisco—Olympic Club vs. Santa Clara.  
Los Angeles—U. S. C. vs. Occidental.

WRESTLER IS IN ACCIDENT

Stanley Rodgers, Bismarck wrestler, was in an automobile accident while hunting at Long Lake, five miles west of Steele. He met John Story, real estate man. The wheels of Rodgers' car skidded and the front wheels caught Story's car. Both cars were pretty badly smashed. Rodgers gave an exhibition for Steele fans at the courthouse gymnasium, wrestling ten minutes with J. Wyant, Fred Herman and M. Rogers. Rodgers is matched with Ellsworth Finlayson at Steele soon.

PENN AND NAVY CLASH TODAY

Washington, Nov. 3.—Penn State and Navy met here today in the first football classic to be played in the national capital in many years. American League park has been converted into a huge amphitheatre with seats for 50,000. Members of the cabinet, high navy and army officers and many others in official life were numbered among the spectators. Both Penn State and the Navy marshalled their first line strength. Penn State in the hope of maintaining its record of not a defeat in three years and the Navy in an effort to "come back" after its failure against the University of Pennsylvania last Saturday. So far as weight is concerned there was little to choose between the teams, the Navy aggregating 1938 pounds to 1926 for State.

CAVALIER TEAM REACHES FARGO

Fargo, N. D., Nov. 3.—The Cavalier high school football eleven, which meets Fargo here tomorrow for the championship of eastern North Dakota arrived last night. The Cavaliers are under the disadvantage of 15 or more pounds to the man lighter weight than the Fargo "midgits." Lynn Huey, Cavalier coach points out that his team has been whipping heavier teams all season and is ready for a finish fight. Observers who saw a short workout of the Cavaliers this morning say they were impressed by the snap and precision of their team work.

His team is primed and ready for the contest he said, with the exception of Birkhofer, halfback who will probably not play at all because of a sprained ankle. The contesting schools have better teams and their teams are better matched than they have been for years, according to depesters and a hard fight is expected, with the University backfield and the Aggie line respectively, excelling.

(By the Associated Press)  
Fargo, N. D., Nov. 3.—Extra bleachers to bring the seating capacity of Dacotah field to 5,000 were being completed today for the homecoming football game between the State University and the Agricultural College tomorrow, said Coach Stanley Borkeske of the Aggies. Intense interest in North Dakota's principal game of the season promises such attendance he said.

Dance tonight at Riverside.

READY FOR USE—BETTER THAN TRAPS

NAVY SCORES SECOND PERIOD

THE SCORE  
First period—Navy 0; Penn 0.  
Second period—Navy 7; Penn 0.

Washington, Nov. 3.—Ragged play and poor punting marked the early stages of the game, but Penn State finally put into execution its double passing and overhead game. Twice it was within striking distance of the Navy goal but Psalm missed a try at field goal on each occasion, the first effort going wild and the second falling short.

After an exchange of punts had given the Navy the ball on State's forty-yard line the midshipmen opened up their overhead attack and in three passes Taylor went over for a touchdown. Conroy made it seven points with a placement goal. The lions came back with a lot of fight but Carney stopped their march by grabbing a forward pass on the 25-yard line and the Navy was able to hold the ball until the period ended.

DYE OLD SKIRT COAT, DRESS IN DIAMOND DYES

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. SCHOOL BOARD IN MEETING

Discusses Damage Done at High School Halloween

The city school board held an informal meeting at the high school this morning to consider what steps, if any, shall be taken as a result of damage done inside the building Halloween.

Books of students were taken out of some desks and put in others, papers mixed and some notes of the students destroyed. The walls were not marked or the desks damaged.

The board discussed the matter with Supt. Savvik, who laid before the board the matter in detail.

GOOD COUNTY MEETINGS HELD

Big Event of Independent Campaign Is Here Saturday Night

Last night Independent speakers held meetings in Hav Creek, Painted Woods, Lyman and Wilson townships. A big attendance was reported at all these meetings. In the township the Nonpartisans held a meeting in a hall across the road from the school house in which Mr. McCurdy and Mr. Catron were speaking. The speakers at these meetings were Miss Allyn Ward and Gen. Williams. Both meetings were well attended. Independent Headquarters state that they attempted to hold a joint meeting at this place, but the Nonpartisan speakers refused to meet them in a joint debate.

Tonight speakers supporting the

Mrs. J. S. Davis

This is of Vital Import to You.

Winona, Minn.—"During my first expectant period I got in a very weakened and nervous condition. My mother advised me to take Dr. Pierce's Favorite Prescription. The first bottle strengthened me so that I continued its use. I took four bottles which not only built me up in strength but I had practically no suffering. I am most enthusiastic in my praise of Dr. Pierce's Favorite Prescription as a tonic and nerve for the expectant mother and am glad to send this letter for publication."—Mrs. J. S. Davis, 161 Harvester Avenue.

All druggists. Liquid or tablets. Write Dr. Pierce, president Invalids' Hotel, in Buffalo, N. Y., for free medical advice.

Evangelist Speaks On Bible Language

Rev. J. E. Naylor, Evangelist conducting meetings at the Baptist church speaking on the subject, "After Death What?" said in his sermon last night that because hell is not a literal place does not do away with the reality of eternal

punishment. The language employed in the Bible is figurative. Biblical writers selected the strongest language and the most vivid pictures of the imagination to convey the conception of eternal happiness and eternal punishment.

Tonight is the last week-night of the meetings. Special invitation is given to the boys of town to attend the meeting tonight and hear Mr. Naylor speak on the subject,

ELECT J. P. SPIES

County Commissioner First District Comprising County Precincts; Lincoln, Fort Rice, Apple Creek, Missouri, Telfer and Boyd.

City of Bismarck: Second, Fourth, Fifth and Sixth Wards.

Election, Tuesday, November 7th.

(Political Advertisement.)

THE O'CONNOR NESTOS TICKET

PARTY COLUMN BALLOT		
Office to be voted for	REPUBLICAN	DEMOCRAT
U. S. Senator		J. F. T. O'Connor X
Rep. Congress:		
1st District	O. B. Burtress X	
2nd District	Geo. M. Young X	
3rd District		E. J. Hughes X
Governor	R. A. Nestos X	
Lt. Governor	Frank H. Hyland X	
Secy. of State	Thomas Hall X	
State Auditor		Hans Anderson X
State Treasurer	John Steep X	
Attorney General	Geo. F. Shafer X	
Com. Insurance		E. A. Lillibridge X
Com. Agr. & Labor	Joe. A. Kitchen X	
Com. Railroads		Arthur Dixon X
(Vote for 3 only)		Wm. J. O'Leary X
		C. W. Pollock X
State Senator		
Members of the House of Representatives		
Official Paper		

If you vote right, that part of the O'Connor-Nestos ticket which is in the party column ballot, Tuesday, November 7th, you will have an (X) marked after each of the names indicated above. There will be no other names in the Democratic column down to the legislature than those that belong to the O'Connor-Nestos ticket. In the Republican column, you mark only for the names indicated above. There will be other names in that column but they do not belong to the O'Connor-Nestos ticket.

Write into this ballot the names of the candidates for the legislature that are a part of the O'Connor-Nestos ticket for your district. Be sure you get them in the right columns. Do the same with the I. V. A. candidate for official paper.

Don't mark an X in the square at the top of the party columns. Don't spoil your ballot that way.

NONPARTISAN (COUNTY) BALLOT		
Name of Office	Candidate	
Judges of the Supreme Court (Vote for 3)	Luther E. Birdzell	X
	W. L. Nuessle	X
	Sveinbjorn Johnson	X
Supt. of Public Instruction	Minnie J. Nielson	X

When you mark your ballot for judges of the Supreme Court and for Superintendent of Public Instruction, remember that the names given above are not always in the same order or on the same lines on all ballots. If you want to give North Dakota good schools and good courts, be sure to mark an (X) after the above names and none other. Every vote that any of the other candidates gets helps to defeat one or all of these. Don't forget to mark an (X) after the name of Miss Nielson and after the names of all county candidates that you know are helping the O'Connor-Nestos ticket. Clip these ballots and take them with you to the polls on election day. Be sure you vote for all of them.

(Political Advertisement.)

"Sixty-eight Days on a Barkentine." The sermon will be especially adapted to boys' life. All boys love the sea and sea stories. Mr. Naylor has told many a nice beginning the

meetings, having been a sailor for a number of months. Special invitation is given to the scout troops to hear this message of Mr. Naylor. Parents and friends are cordially

invited to attend with the boys and help make the meetings worth while. There will be no meeting tomorrow night, but Rev. Naylor will speak Sunday morning and

evening, closing the series which has been in progress a month.

Dance tonight at Riverside.

VOTE FOR J. L. Kelley

FOR SHERIFF BURLEIGH COUNTY First Choice of the Voters at the June Primaries

(Political Advertisement.)

To the Citizens of Burleigh County:

In presenting myself for re-election I refer to my conduct of the office and the fact that the unprecedented volume of business before the Court during my incumbency has been handled without additional clerical assistance.

Respectfully, I. C. DAVIES, Judge of the County Court.

(Political Advertisement.)

A WARNING TO INDEPENDENT VOTERS.

The records of the vote in the June primaries show that 268 women and over 100 men voters, in Bismarck alone, who voted for Nestos for governor and the other Independents for State Offices failed to vote for members of the Legislature. They just "Got Tired" before they came to vote for the members of the Legislature and did not vote.

Do not let this happen on November 7th. Vote for Messrs. Heaton, Anderson and Harrington for the Legislature, and Johnson, Birdzell and Nuessle for the Supreme Court.

DO NOT "GET TIRED"

Before you finish voting, and lose your vote on these very important offices.

BURLEIGH COUNTY JOINT CAMPAIGN COMMITTEE.

(Political Advertisement.)

An Open Letter to the Voters

Bismarck, N. D. October 28, 1922.

Dear Voter:

I am a candidate for re-election as County Commissioner of the First Commissioner District for Burleigh County and I desired to see you personally but owing to my large farming and other business interests and want of help, it will be impossible to see many of my constituents.

My district comprises all of the city of Bismarck south of the township line and within two miles of Menoken. The rule is that each Commissioner takes care of the roads in his individual district and I have never interfered with the work in another Commissioner's district. The records will show that I have expended less money for roads and bridges in my district since acting as Commissioner than has been expended in any other district.

The roads in my district are good. The worst roads in Burleigh County will compare favorably with the streets of Bismarck after leaving the paved streets and are far better than the streets to and around the Capitol Building and the Ferry road after leaving the N. P. crossing, which points are in the city limits. The road from the pavement on Main Street to the Penitentiary, which is in the city limits, was an eyesore and a disgrace for years until taken in charge by myself and put in the condition it is at present.

It is true that some roads in the county have not been kept in first class condition owing to the continual dry weather and because labor could not be secured. The County Commissioners have desired to give as much employment on the roads as possible to the individual farmers, and the Board has been limited in the amount that could be expended, the appropriation for 3,300 miles of road being Forty-five Thousand Dollars per year to keep in repair these roads and provide for the making of new roads.

There have been comments regarding the roads around the Patterson farm. I furnished the gravel for those roads without charge to the County and furnished more than half of the labor at my own expense, and the farms of Yegen, Wachter, Thompson, Griffin and others received the same benefit of my donation, and I will guarantee that, while I am on the Board, if anyone will furnish the gravel and half of the labor, as I did, I will build them as good roads as there are around the Patterson farm.

I am a large taxpayer in Bismarck and Burleigh County and it is certainly to my interest to keep the taxes low, both on city and county property. Your support will be deeply appreciated.

Respectfully yours,

Edward G. Patterson

(Political Advertisement.)
